## Plastic Cistern Outlet Valve Seal

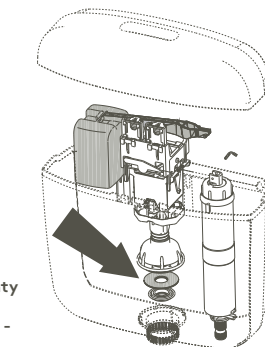

### Installation Instructions

1. Turn off water, flush cistern and remove cistern lid.
2. Remove pivot pin and lift out arm and float.
3. Release clips and remove outlet valve.
4. Turn valve upside down and remove old seal by stretching it over the nut.

5. Lubricate new seal with soap and water, then stretch over nut onto valve.
6. Turn the float until the seal is centred (approx 3 turns).
7. Insert valve back into position and replace clips.
8. Replace arm and float and replace pivot pin.
9. Replace cistern lid and turn on water.

Always ensure work is carried out by a licensed plumber. Warranty claims can only be made with proof of installation by a licensed plumber. For complete warranty details, please visit our website - [www.caroma.com.au](http://www.caroma.com.au)
