

Model Code: CR340DB

## Included Accessories

## Optional Accessories

## Dimensions

## Specifications

Description	Double Bowl, Inset/Undermount Sink
Overall Sink Size	758mm x 445mm x 200mm deep
Bowl Dimensions	355mm x 400mm x 200mm deep 355mm x 400mm x 200mm deep
Drainer Length	N/A
Technic	Fabrication
Material	Stainless steel SUS304

## Installation

Fixings	Inset & Undermount clips supplied
Template	N/A
Min Cabinet Size	800mm
Waste Holes	2 x 90mm round Compatible with waste disposal

## Plumbing

Waste Fittings	2 x (90mm x 2") basket wastes included
Overflow	Available, conditions apply

## Packaging

Carton Type	EPS protection & individual carton
Gross Weight	12.71Kg
Carton Size	850mm x 286mm x 513mm
Pack QTY	1

### PROFILE

Abey are Australia's leaders in sinkware, designing and manufacturing to the world's highest quality specifications as well as sourcing and bringing you Europe's very best, leading edge designs – practical, affordable, inspirational, stylish, timeless or cutting edge. When you buy an Abey stainless steel sink you receive the highest quality and 25 year warranty. Abey and the manufacturer are continually seeking ways to improve the design specifications, aesthetic and production techniques of the products. As a result, alterations to the specifications and dimensions of the products and designs occur continually.

# PearlArc Technology

**ABEY** has launched the exciting new **ABEY** collection of sinks, taps and accessories. Utilizing the latest cathodic arc surface treatment technologies, these **ABEY** products will be the highlight of your kitchen space. Perfect for modern open-plan living spaces.

## **SHOT - PEEN SURFACE HARDENING**

Shot peening the stainless steel surface creates a harder more durable surface, that is both scratch-resistant and impact-resistant. The mixed material micro-beads are fired into the stainless steel surface causing plastic deformation and hence compressive stress in the material.

## **TITANIUM OXIDE COATING**

Commonly referred to as PVD, Titanium Oxide Coating is a vapour deposition technique where solid titanium metal is vaporized in a high vacuum environment and deposited on to the sink surface as a pure metal coating.

The process transfers the titanium at a molecule level providing an extremely hardwearing coloured layer.

## **NANO RESIN COATING**

Finally a nano-resin layer of hydrophobic active substance provides long lasting, ultra-thin protection and a durable easy to clean surface effect.
